Dr Ernst Otto Riecken, An Appreciation
W Strober 1

SECTION I: INFLAMMATORY BOWEL DISEASES:
SUMMARY OF THE WORKSHOP
Chair: RS Blumberg, MF Neurath

1 Key Note Lecture in honour of Ernst Otto Rieckens 75th birthday:
Immunological therapy of Crohn’s disease
W Strober, P Mannon, S Fichtner-Feigl, I Fuss 7

2 Cytokine pathways in inflammatory bowel disease –
the yin and the yang
CO Elson, Y Cong, C Maynard, C Weaver 20

3 Biologicals for treatment of patients with inflammatory
bowel diseases – quite in fashion or really necessary?
T Bruns, C Schmidt, A Stallmach 26

SECTION II: OESOPHAGUS AND STOMACH
Chair: P Malfertheiner

4 Functional dyspepsia – pathomechanisms, diagnostics,
therapy and prospects
H Mönnikes, M Schmidtmann, A-S Wisser 47
CONTENTS

SECTION III: LIPOPROTEINS AND BILE ACIDS: PHYSIOLOGY AND PATHOPHYSIOLOGY
Chair: F Berr

5 Gastrointestinal regulation of cholesterol balance
   DE Cohen 63

6 Chaperoning organic anion transporters through the hepatocyte
   AW Wolkoff, P Wang, S Nath, S Sarkar, JW Murray 66

7 Pathophysiology of bile secretion
   MC Carey, MR Leonard 77

SECTION IV: BILE DUCT DISEASES
Chair: T Sauerbruch

8 Pathogenesis of gallstone formation: updated inventory of human lithogenic genes
   F Lammert, T Sauerbruch 99

9 Recent advances in diagnosis and treatment of biliary neoplasm: theories and techniques for resection of lower bile duct neoplasm
   W Kimura 108

SECTION V: PANCREATIC PHYSIOLOGY AND PATHOPHYSIOLOGY
Chair: JC Dagorn

10 Cellular mechanisms of pancreatic digestive enzyme secretion
    JA Williams, X Chen, Y Bi, JW Lim 119

11 Genetics of chronic pancreatitis
    H Witt 131

12 Acute-phase reaction of the pancreas
    JL Iovanna, C Archange, J Nowak 148

SECTION VI: PANCREATIC DISEASES
Chair: P Dité

13 Acute pancreatitis
    G Adler 167
CONTENTS

14 Chronic pancreatitis: clinical and molecular update
   DC Whitcomb, S Cooper, A Raina, D Yadav 176

15 Gene expression analysis reveals the complexity of acute pancreatitis
   S Gaiser, CD Logsdon 187

16 Key Note Lecture: Future of endoscopy in gastroenterology
   JF Riemann, L Helmstaedter 199

SECTION VII: GASTROINTESTINAL ONCOLOGY I
Chair: MC Carey

17 Gastrointestinal lymphoma
   W Fischbach 207

18 New developments in the pathogenesis, diagnosis, therapy and prevention of gastric cancer
   MPA Ebert 214

19 Key Note Lecture: Relationship between exocrine and endocrine pancreas
   M Otsuki 221

SECTION VIII: GASTROINTESTINAL ONCOLOGY II
Chair: MC Carey

20 Hepatocellular carcinoma: future perspectives
   HE Blum, L Lan, HC Spangenberg 241

21 The role of the polyomavirus, JC virus, in the pathogenesis of colorectal cancer
   CR Boland 259

22 Key Note Lecture: Gastroenterology in the tropics
   R Tandon 265
